Power plant
Shut down since 30 December. An attempt to start the plant at severely diminished capacity failed because Gaza’s electricity network is damaged and cannot deliver power to targeted areas.

Nearly 300,000 litres of industrial gas and 140 tonnes of cooking gas entered. None of the fuel was collected due to security concerns.

Kerem Shalom Crossing Point
80.5 truckloads, including 34.5 for aid agencies entered. It is not clear if the truckloads of supplies were transferred out of the crossing after the contractor with the authority to transfer goods suspended operations.

Karni Crossing Point
Grain conveyer belt closed.

Beit Lahiya
Wastewater treatment plant’s sewage lake is at risk of overflowing.

Shifa Hospital
Access to the main hospital is severely curtailed.

Impeded mobility
The two northern governorates are isolated from the rest of Gaza.

Rafah Crossing Point
Nearly eight truckloads of medical supplies entered and four medical cases exited.
